Lesson 1

## Chapter 9 Plant Nutrition

### Pre-lesson tasks

What nutrients do plants need? What do plants need to get in order so that they can make their own food?

### Today's Question

**What will happen if excessive water is added to the soil (waterlogged or flooded soil) of a plant?**

<u>P</u> rediction	<u>O</u> bservation	<u>E</u> xplanation

1. Why does excessive water in soil (waterlogging) cause the negative effects to the flooded plants?

2. What will happen if the plant is waterlogged for a long period of time?
