

Chief Executive’s Award for Teaching Excellence (2024/2025)

Excellence Indicators for Teaching Practices

Award for Budding Teachers

Foreword

The *Excellence Indicators for Teaching Practices* compiled in this document serve as a reference for assessing nominations for the Chief Executive’s Award for Teaching Excellence (CEATE) (2024/2025). In drafting the Indicators, we consulted a number of references, including curriculum documents (see References on page 5). The Indicators have been formulated and structured in a way that reflects the complexities of teachers’ work and the diverse nature of teachers’ competencies.

For the purposes of CEATE, teaching excellence refers to teaching practices in which a teacher has demonstrated excellence in providing students with learning experiences that facilitate their learning. These practices should be grounded in a coherent conceptual framework or academic research, exhibit reflective elements, and be inspiring and shareable with peers. The Assessment Panel will focus on three key areas, namely (1) Cultivating Values and Nurturing People, (2) Excellence in Professional Knowledge and Teaching Competence, and (3) Positive Impacts on Students’ Whole-person Development.

The Indicators are to be used only as a framework for recognising excellent teaching practices; they are not intended to prescribe a rigid model of excellence for every teacher. The examples of excellence cited for each indicator are provided for illustration only and should not be regarded as a checklist.

All awardees must possess the essential qualities of a professional teacher, such as professionalism and a loving concern for students. Each nomination will be assessed in the three key areas mentioned above by adopting a holistic approach based on professional knowledge and judgment. However, as the focus of CEATE is on learning and teaching, we are looking for exemplary and effective teaching practices that are inspiring and shareable with peers.
